Observation of World Environment Day :A Report

The Environment and Climate Cell of Kamrup College, Chamata has been observing World Environment Day each year on 5th June to raise awareness among the local people and students of schools and colleges and to take positive environmental action to protect the planet Earth and nature.

In this year also Environment and Climate Cell of Kamrup College, Chamata has successfully organized a host of activities on the occasion of World Environment Day.2022. These activities are:

1. An essay competition was organised among the students of the college on the theme “Sustainable Development and Environment -friendly Living”one week ahead of the WED. Fifteen no. of students participated in this competition and three best participants were awarded for their quality write up.
2. On 5th June an awareness meeting was held in the college premise in which Dr. Saiki Talukdar,HoD of Political Science delivered a speech on the theme “Only one Earth”.
3. The awareness meeting was followed by a plantation drive was organised by the cell. Nearly 25 saplings were planted with protection net in the roadside near the college.
4. At the end of the Day long programme the students of the college distributed saplings of neem tree among the local people.

Free Plant Sapling Distribution & Environmental Awareness Programme

As part of 42nd Green Week initiative organized by the Government of Assam in collaboration with Social Forestry Division along with Office of the Range Forest Officer Social Forestation, Nalbari at Kamrup College premises, an environmental programme movement was held on 11th May 2022. At the end of the programme, distribution of about 1500 plant saplings was held among the students, teachers and staff of the college. To create an awareness among youth and students, environmental NGO Green Globe gave a brief presentation to emphasize the importance of planting trees and also how to live a sustainable lifestyle that is environment friendly by minimizing our use of plastic thus taking small steps at individual level to protect and slow down our planet from the adverse effects of global warming and climate change. While sharing his experiences of life with the audience Forest Officer Mukut Das gave some valuable insights to the students. There was also prize distribution ceremony for a poster competition that was held earlier. Apart from this initiative, the fact remains that our college is situated at an eco-friendly environment and while

keeping in mind the importance of nature, how the oxygen that we breathe is sourced from trees and how it is essential for human survival we as a community has always co-existed with nature through our eco-friendly efforts like plantation drives in the areas adjoining near the college. Together with the fact that we have a college environmental cell that takes up various activities like planting tree, flower plants from time to time and taking care of the college garden inside the campus. There is also an active NSS Green Club at our college that organizes environment related activities. We, as a community of students, teachers and staff understand and has always been raising awareness related to environment and how much dependent are we with nature while trying to explain how the man-made problems of deforestation are all related to humans destroying our mother earth in the name of development and industrialization. We, at Kamrup College believe living, co-habiting and co-existing with nature is the surest way to a balanced eco-system, healthy and eco-friendly living without destructing and harming our environment.

Report of the Celebration of World Environment Day
05-06-2023

On 5th June 2023, Department of Economics, Kamrup College, Chamata in collaboration with IQAC, Kamrup College celebrated World Environment Day by organising a tree plantation programme. The programme was an excellent initiative to create awareness about the importance of trees and the need to preserve our environment. Tree plantation is very essential because trees provide oxygen to the environment and make the air quality better. If more trees are planted, then the world's environment will become a safer place to live in. Tree plantation is indispensable for making the life of future generations safe and secure.

The department of Economics invited respected Principal Sir of the college Dr. Debendra Kumar Bezbaruah, Dr Ritamani Deka , Assistant Professor, Department of Education and Sri Binod Talukdar, Head Assistant for this program. At the very outset, the guests were felicitated by a " fulam gamusa". Principal Sir was felicitated by the head of the department Mrs Runu Saloi and the other guests were felicitated by the students of the department. Soon after felicitation, saplings of valuable trees, contributed by Dr. Biswajit Das, Assistant Professor, Department of Economics cum Coordinator of IQAC and the students of the department, were

planted by the guests and head of the department, both within the campus and along the roadside. The programme was concluded with a brief speech of Principal Sir emphasizing the importance of World Environment Day and the benefits of tree plantation.

The tree plantation programme was very successful.

Unleash Your Ideas to Clean Our College!

on the occasion of
WORLD ENVIRONMENT DAY 2023

**CARE.
COMPETE.
CLEAN!**

If you care for the environment then show us your commitment by participating in this initiative.

Rules:

1. This is an intra-college contest open to all students of the institution.
2. The contest will be held from **June 1st to June 4th, 2023.**
3. Each participant is allowed to submit only **one ORIGINAL IDEA** entry related to how to clean the campus. Participants can seek assistance from a guide, whose name should be included in the entry.
4. **Medium:** Assamese/English.
5. The submitted idea should not exceed the word limit of **500 words.**
6. The idea must be accompanied by a suitable caption.
7. Shortlisting of ideas will be based on feasibility, cost efficiency, and other relevant factors. The top 5 ideas will be selected for presentation on June 5th.
8. **Three winners** will be selected and rewarded. The winners will be announced on **June 5th evening.**

Environment and Climate Cell Kamrup College, Chamata

Report on Two Day state level seminar on Vermicomposting and Solid waste management

Kamrup College Environment and Climate Cell successfully organized a Two day workshop on Vermicomposting and Solid Waste Management sponsored by Assam Science Technology and Environment Council(ASTEC) on 5TH and 6TH June, 2024 .

The Inaugural day was flagged off by a tree plantation programme. Almost ten local varietees tree planted with Plant protector. The inaugural technical session was chaired by Dr. Kabita Choudhury vice Principal of Kamrup College, Chamata. The First technical session was taken by Mr Mridupaban Mudoi, Agriculture expansion Officer, Govt. Of Assam. Mr Mudoi delivered his lecture on Vermicomposting.

Mrs Rekha Das, Agriculture Entrepreneur, Balikuchi was presented as the resource person of the second technical session of first day . She elaborated about the materialsb needed for vermicomposting and choosing the right worms for the system.

There is a break for lunch at 1 p.m. After the break Third session of the first day was hands and training session. Mrs Rekha Das gave a hand on training on vermicomposting in the Kamrup College vermicomposting project.

The second day was flagged off by a tree plantation programme. two local varietees of tree planted By Mrs Dipika Barman, HoD, Department of philosophy .The first technical session was chaired by Dr. Sanjib Kr. Goswami associate prof., Department of English of Kamrup College, Chamata. . First technical session was taken by Dr. Dinesh Baishya, Honarable vice Chancellor, Krishnaguru adhyatmik Viswavidyalaya, Sarthebari, Barpeta. Prof. Baishya delivered his lecture on Understanding the importance of waste management and its impact on environment.

Dr. Kumud rabha Hod, Department of Zoology, Nalbari College, invited as the resource person for the second technical session of second day Dr. Rabha delivered his speech on recycling and reuse of solid waste. Dr. Rabha also gave hands on training on preparation of various product from waste plastic

There is a break for lunch at 2 p.m. After the break Valedictory session was started with feedback of the participants and distribution of the certificate. At the end Dr. Bhaben kakati elaborated about some points of LiFE Mission and role of the Eco Club. He urged all the in charge of the eco club to develop at least a bag for vermicomposting and create an awareness programme on waste management in nearby school village.

!0 nearby schools' Eco Club with more than 100 student participate in this programme

Environment Education Programme
Mission LIFE in Assam
2 Days State Level Workshop on
VERMICOMPOSTING AND SOLID WASTE MANAGEMENT
 Organised by
Kamrup College Environment and Climate Cell
 Assam Science Technology and Environment Council
 Under the aegis of
 6th & 7th June, 2024
 Supported by
Ministry of Environment, Forest and Climate Change, Govt. of India

Programme
Day -1: June 05, 2024
Workshop on Vermicomposting

Session 1 (Morning) Chairperson: Dr. Kabita Choudhury

9AM: Registration of participants (ice- braking)
 9.45 AM: Plantation drive- Dr. Bhaben Pathak
 10.00 AM: Initial Announcements & Introduction to the Workshop – Dr. Bhaben Kakati
 10.15 AM: Inauguration of the Workshop – Dr. D.K. Bezbaruah
 10.20 AM: Speech by Guest of Honour – Mr. Jyotirmoy Sarma, Social Activist
 10.35 AM: Technical session – Dr. S. K. Goswami
 About Environment Education Programme (EEP) and Eco Club network
 About Mission LIFE and LIFE actions
 Introduction to Vermicomposting

Session 2 (Morning)

Key Resource Person: Mridupaban Muoi, ADO, Dept of Agriculture, GOA

11.00 AM-1.00 PM: Vermicomposting - how it works
 Advantages of using earthworms for composting
 Principles of vermicomposting and its benefits
 Earthworm Biology and Physiology
 Setting Up a Vermicomposting System
 Materials needed for vermicomposting
 Choosing the right worms for the system
 Theory on how to create a vermicomposting bin/tank
 Harvesting and Use of Vermicompost
 How to harvest vermicompost and separate worms
 1.00 PM: **Lunch**

Session 3: Hands-on session (Afternoon)

Key Resource Person: Mrs. Rekha Das, Farmer & Agricultural Entrepreneur

2.00 PM- 4.00 PM: Building and Assembling the Vermicomposting System with Scientific Insights
 Scientific Aspects of Materials Needed for Your Bin: Containers, Bedding, and Carbon-to-Nitrogen Ratio
 Constructing the Vermicomposting Bin: Applying Scientific Principles
 Various applications of vermicompost in gardening and agriculture
Vermicomposting - Success Stones

Session 4

4.00-5.00 PM Adding worms and Scientific Monitoring
 Bedding Materials and Earthworm Selection
 Scientific Monitoring of the vermicomposting system, Temperature, Moisture, pH, and Microbial Activity

Programme
Day -2: June 06, 2024
Workshop on Solid Waste Management

Session 1(Morning) Chairperson: Dr. Sanjib Kumar Goswami

9AM: Registration of participants (Ice- breaking)
9.45 AM: Plantation drive- Prof. Dipika Barman
10.00 AM: Initial Announcements & Introduction to the Workshop: Significance of Waste Free Campus – Dr. Bhoben Kakati
10.15 AM: Inauguration of the Workshop – Dr. D.K. Bezbaruah

Session 2 (Morning)

Understanding the importance of waste management and its impact on the environment:

10.20 AM: Key note Address – Prof. Dinesh Baishya, Hon'ble Vice Chancellor, Krishnaguru Adhyatmik Visvavidyalaya

Understanding the importance of waste management and its impact on the environment:

Importance of proper waste management
Overview of Solid Waste Management- solid waste and its types
Environmental and health impacts of poor waste management
Plastic Waste Management
Information on Govt. bodies/ NGOs/ unorganized sectors that take care of solid wastes & Linkage with such bodies for making campuses waste free

Session 3: (Afternoon) Chairperson: Dr. Kabita Choudhury
Up-cycling and Creative Reuse of Plastics

12.10 PM: Key Resource Person:
KUMUD RABHA, Head, Department: ZOOLOGY, M.Sc.,M.Phil
Concept of up-cycling and how it can turn plastic waste into valuable products, Examples of up-cycled plastic products)

1.30 PM: Lunch

Session 4(Afternoon)

2.30 PM- 3.00 PM: Hands-on trainings
Hands-on training on preparation of various products from waste plastic
Practical Strategies and Case Studies
Domestic and commercial production of such items
Scope of such products as a way of livelihood

Valedictory Session

3.00-3.30 PM : Feedback & Distribution of Certificates

Eco-club In-charge
Sri Girish Lalita.
