Executive Summary

This report provides a thorough summary of the recently finished short-term Foundation course for competitive exams of all kinds, which was created especially for graduate and undergraduate students getting ready for competitive exams. The program's objectives were to increase students' motivation and provide assistance in developing strategies for competing in various competitive exams, which would increase their prospects of landing employment in the government and at higher institutions.

Program Overview

Objectives

- To offer a rigorous curriculum that addresses the fundamental subjects needed to pass a range of competitive tests.
- To improve analytical abilities, time management, and test-taking techniques.

Duration and Venue

- The program ran for 15 Day, from 15th to 29th December, 2023.
- It was held at Kamrup College Campus located at Chamata, Nalbari.

Participants

- The program was attended by more than 100 students from various disciplines.

Methodology

1. Curriculum Design

The course material was created with a wide range of competitive exam-relevant topics covered, such as general awareness, logical reasoning, verbal ability, and numeric aptitude. Exam-specific tactics and stress management approaches were the focus of special classes.

2. Teaching Methods

- Interactive lectures led by experienced instructors.
- Peer learning sessions and group discussions to promote a cooperative learning environment

Key Highlights

In the presence of vice principal Dr. Kabita Chaudhury and professors from Kamrup College, Chamata, our honorable principle Dr. Debendra Kr. Bezbaruah officially opened the event. Arpana Sarma, SDC, Pashim Nalbari Circle, taught the first general studies lesson of the first session.

Experts from other sectors are asked to participate in additional sessions. Assistant Manager of Assam Gramin Vikash Bank Nabajit Changmai taught political science and reasoning in two classes. A well-known professor and director of Lalan IAS Academy, Hiranya Madhab Saikia, former assistant accounting officer at the CAG, Government of India, delivered a special lecture on economics. Numerous renowned professors encourage the students of the classes and inspired students in various ways.

Outcomes

- On mock tests, participants demonstrated a noticeable improvement in performance, with an increase in average score.
- Several students have reported receiving positive results in their respective competitive exams post-program.

Conclusion

It appears that the program is a huge success. For the students, the lectures were highly beneficial and captivating. Many students from different departments benefited from this and were inspired to prepare and show up for various competitive tests. The organizers hope that the strategies and approaches that have been taught during this session will be useful. The organizers are delighted to launch another event of this kind soon after witnessing the enthusiastic response from the students.
