## From Editors desk...

We are truly honoured and grateful to have been chosen as the editors of this year's(2022-2023) issue of "Mirror", our college's yearly news bulletin that reflects all the unique energy, achievements and efforts within and outside the campus. With contributions from each of the 14 departments- both in the sciences and the arts- "Mirror" is a place for everyone's work to shine. It reflects the educational, cultural and social activities of teachers, students and college community.

As we step into this responsibility, we are excited to make "Mirror" a true reflection of our college's spirit and creativity. It's not just a bulletin but a yearly celebration of all the hard work, passion and innovation from students, faculty and staff alike. We are looking forward to working closely with each department to capture the amazing moments and milestones that define this college. Thank you again for this opportunity and we are eager to bring "Mirror" to life.

# MIRROR

*A News Bulletin, Kamrup College, Chamata*

## From the Desk of Principal...

Dear Staff and Students,

It is my pleasure to share a few thoughts in this issue of Mirror for 2022-23. This year has been one of remarkable achievements and growth, driven by our collective commitment to excellence, innovation, and community service. We, the Kamrup College family along with the locality of west Chamata take the opportunity to be proud of introducing Science stream, the much waited longing of all stakeholders. With this new beginning the college family has been extended to be a large one fulfilling a big void relating to Science education at higher level in this entire area of west Nalbari. We are keen to provide the needed amenities and requirements to our teachers and Students including science laboratories. The whole year has passed by with a handful of varieties of program and events done by our teachers and students. To keep all those events lively and in proper preservation our teachers staff has been doing a great job by publishing the news bulletin, "Mirror" annually. I hope this time too, Mirror will be able to reflect the college features in an attractive way under the editorship of Dr. Kabita Choudhury and Dipika Barman, Associate Professors of the Dept. of Education and Philosophy respectively.

As we look to the future, let us build on our successes, embrace new challenges, and uphold the values that make our college unique. Together, we are shaping a brighter tomorrow for ourselves and the generations to come. Long live Kamrup College, Chamata.

**Dr. Debendra Kr. Bezabaruah**  
Principal, Kamrup College  
Chamata

## MESSEGE

I feel very proud to know that Kamrup College, Chamata is going to publish its annual mouthpiece “Mirror”, 2022-23 which I believe to be the looking-glass wherein one can see, among other things, the academic creativity of the learners expressed through their contributions to the bulletin. The bulletin may also contain the glimpses of the departmental activities of the institution and thus it makes the image of the college very vivid to all. Every Academic session of an educational institution passes through a number of activities and programmes undertaken by all the stakeholders of the institution. Kamrup College, Chamata is no exception to it too. Hoped Mirror, 2022-23 has reflected all such programmes.

The annual mouthpiece to be published with the joint effort of the teachers and the thought, it is hoped, would send a creative and positive message in our social fabric. I convey my thanks to the members of the editorial board for their noble venture.

It is hoped that the college, in near future, will reach never heights in its march towards academic excellence.

**Dr. B.N. Pathak**
